Québec 4, QUE.

REMARKS.

AS every department of the Establishment is under the personal attention of the Proprietors, they feel that they may confidently guarantee the identity and correctness of all the Trees and Plants sent from their establishment, as every tree that is expedited, is selected and packed under their own eyes, and they have further to say, that should any error arise, it will be rectified with the greatest pleasure.

In the introduction of the products of foreign countries, the proprietors do not intend to confine themselves, to those alone which may yield pecuniary profit to themselves, but to obtain from various parts of the world every tree or plant which may promise to yield any benefit; it being their object to make their establishment a National Repository of every thing useful or interesting in Botany, both as regards Manufactories or Horticultural and Scientific Experiments.

Visitors are allowed free access to the Establishment on all days—persons conversant with Horticulture are invited to visit their Establishment for their amusement, as well as in order that they may form a proper estimate of the extent and value of their Collection.

It will be perceived that numerous and splendid acquisitions have been made and great attention has been exercised in selecting the most interesting and beautiful, many of which have been purchased at a great expense, the prices have been greatly reduced, and are lower than articles of the same quality can be obtained elsewhere.

Priced Catalogue of Canadian and American Plants and Seeds for exportation to Europe can be had *gratis*.

The Trees, Shrubs and Plants, can be packed in such manner as to be transported to any distance, all orders will receive the same pointed attention as if the persons desiring them were present, to make their selections.

The Proprietors in offering this Catalogue to the Public, call the attention of amateurs to the numerous highly interesting plants which it contains, many of which cannot be found in any other collection in this country.

OBSERVATIONS.

COMME les Propriétaires surveillent eux-mêmes en entier leur établissement, ils peuvent en toute sûreté garantir l'identité de tous les Arbres et Plantes qui en sortiront, vu qu'ils sont choisis, empaquetés et expédiés sous leurs yeux ; s'il arrivait quelque erreur, elle sera rectifiée avec le plus grand plaisir, et ils répareront le tort qu'aura pu occasionner ce délai.

En introduisant dans ce pays les productions des pays étrangers, ils ne se borneront point à celles qui peuvent leur rapporter des avantages pécuniaires ; ils se proposent de faire venir des différentes parties du monde les arbres ou plantes qui promettront d'être utiles, leur but étant de faire de leur établissement un dépot national de tout ce qui peut servir ou intéresser en Botanique en fait de Manufactures ou d'expériences d'Horticulture ou Scientifiques.

Les personnes qui voudront visiter l'établissement y auront un libre accès tous les jours ; ils invitent ceux qui s'entendent en Horticulture à le venir voir pour leur propre amusement et pour juger de l'étendue et de la valeur de leur collection.

On verra qu'ils ont fait de nombreuses et précieuses acquisitions en choisissant les plantes les plus intéressantes et les plus belles, un grand nombre desquelles leur ont coûté très-cher ; ils en ont considérablement réduit les prix qui sont plus bas que ceux qu'on demande partout ailleurs pour les articles de la même qualité.

On donne *gratis* des Catalogues (indiquant les prix) des Plantes et Graines du Canada et de l'Amérique qu'on désire exporter en Europe.

Les Arbres, Arbustes et Plantes peuvent être empaquetés de manière à être transportés à aucune distance, en sureté. Tous les ordres reçus seront exécutés avec autant d'attention que si ceux qui les transmettent fesaient leurs choix eux-mêmes.

Les Propriétaires, en offrant ce catalogue au public, invitent l'attention des amateurs au grand nombre de plantes qu'il contient, et dont un grand nombre ne se trouve dans aucune Collection en ce pays.

S. Guilbault & Cie.

GREEN-HOUSE PLANTS.

All of which will thrive in a comfortable Sitting Room during Winter; they are either in Pots or Boxes.

PLANTES DE SERRE.

***Elles pousseront toutes dans un appartement tempéré pendant l'Hiver; elles sont en* Pots *ou* en Boîtes.**

Geraniums or the Family of Geraniaceæ.

The larger proportion of the following has been selected from the first Collections, and consists of the most splendid varieties that can be procured; they are offered to the public as a Collection which cannot be surpassed in beauty.

They have been chosen from R. Sweet's splendid work on Geranium.

Geranium ou la Famille des Geraniaceæ.

La plus grande partie des Plantes suivantes a été chosie dans les meilleures Collections, et se compose des plus magnifiques qu'on puisse se procurer. On les offre au public comme étant une Collection qui ne peut être surpassée en beauté.

Elles ont été choisies du Traité superbe de *R. Sweet* sur les Geraniums.

*** No care is wanting of the Proprietors to give such directions as may cause them to arrive safely; but it is to be expressly understood, that after the Plants being delivered or shipped in Montreal, they are at the risk of the Purchaser.

Persons are desired to send their letters post paid.

FLOWERS and GARDEN SEEDS can be supplied; and FLOWER POTS of every size at a very reduced price.

Gentlemen furnished with experienced Gardeners, and Gardeners of character with places.

Vegetable, Cullinary and Medical Plants, can be had, in the proper season, by applying to the Foreman to the Vegetable Department.

☞ Purchasers from £10 to £15, 5 per cent. Discount; £15 to £25, 10 per cent.; and £25 to £50, 15 per cent. A fair deduction will be made to those following the same line of Business.

*** Aucuns soins ne seront épargnés par les Propriétaires pour que les objets demandés puissent arriver en sûreté; mais il est expressément entendu que les Plantes, après avoir été délivrées ou embarquées dans Montréal, sont aux risques et périls des acheteurs.

Toutes personnes sont priées d'affranchir leurs lettres.

On peut fournir des Graines de Fleurs et Potagères, et des pots à fleurs de toutes grandeurs, à des prix réduits.

On se chargera de procurer des sujets aux personnes qui désireront des Jardiniers expérimentés et d'un caractère convenable. Les Jardiniers qui auront besoin d'emplois en seront également pourvus.

Les Plantes Végétables, de Médecine et de Cuisine, seront fournies en saison convenable, sur la demande qui en sera faite au Jardinier chargé du Département de ces Plantes dans l'Établissement.

☞ Les acheteurs de £10 à £15, obtiendront 5 par cent d'Escompte. Ceux de £15 à £25, 10 par cent; et ceux de £25 à £50, 15 parcent. Des remises convenables seront faites aux personnes qui exercent le même commerce.
